Subject: Microsoft Suit

My personal opinion is, this suit should never have happened. It was bogus from the get go. This is not a "public Utility" that needs corralling - this is private enterprise. Let the competition gear up, think up, plan up, but don't penalize Microsoft for their wonderful OS that brought millions of people into the home computer market. (People such as myself, a 78 year old widow).
Sincerely, Jean LeComte, St. Petersburg, Florida 33707
